Dear Doctor Henning,  
my friend Jean Friendly had informed you that due to my  
work I had not been able to ~~examine~~ the cast  
you had kindly sent. scrutinize

I had the opportunity to examine the cast sent to  
me through Machteld Mellink only yesterday.  
When ~~examined~~ <sup>considered</sup> together with the torso from the Burdur  
Museum the scale was correct. However, in order to  
determine that the head from the Santa Barbara Museum  
belongs to the torso from Burdur it is necessary to have  
the breakages at the edges fit together. Unfortunately  
such a correlation does not occur anywhere with the  
pieces. I am also planning to seek the opinion of an  
Austrian restorer who has expertise in this field.  
Thank you very much for your help and support in this  
matter.

Sincerely,

J. Fran.

Dear Dr Henning.

I had the opportunity to examine the cast which you sent me through M. Melink. only yesterday when examined together with the torso from <sup>the</sup> Burdur ~~Burdur~~ <sup>museu</sup> ~~museu~~ the <sup>size</sup> scale was correct. However, in order to prove that the head from <sup>the</sup> Santa Barbara museum belongs to the torso from Burdur it is necessary to have the ~~breaking~~ breakadges at the edges fit together. Unfortunately such a fit does not occur anywhere on the pieces. ~~Later this~~ I'm planning also to seek the opinion of a <sup>restorer</sup> Austrian who ~~happens to be an expert on the resto~~ <sup>his expertise in the restorating of bronzes</sup> ~~this field.~~

- Thank you very much for your help + support in this matter

Sincerely
