Monsieur le Directeur Bay Aziz Ogan,
Musée des Antiquités,
Istanbul, TURKEY.

My dear Director,

I do not know how to thank you for your great kindness in sending me such a beautiful water colour sketch of such an attractive and picturesque street in Istanbul. It is most attractive. I am very pleased and happy to have it and am having it framed to hang in my room.

I have to thank you very much, too, for all the papers of your own you have so kindly sent me, published by the Touring and Automobile Club of Turkey. These are all most interesting and will be very helpful when we go back to Turkey. My daughter, Anne, who is taking an Honours Degree

in Philosophy at the University, is interested in
Archaeology and has always wanted to come to see
Istanbul. I hope when we come again she will be
able to accompany us.

Thanking you again and hoping you keep
very well,

With kind regards,

Yours very sincerely,

David Russell
