Dear Dr. Gürsey,

let me thank you for your good wishes for the New Year; I am sending you mine for the Year that has begun, they come not less from my heart for beeing late, I was taken ill and must keep very quiet still.

This is also the reason why I return with some delay - and my apologies - your 8 original Pauli letters, after having taken photocopies.

I thank you very much indeed for letting us have your letters for our Collection. As for your "misgivings and the advise of Pauli's friends", you may see from the enclosed Circular, that the intention of our Comittee is, first of all, to collect Pauli's Correspondence. I took upon me the great responsibility - and work - for this Collection, for the very reason to protect colleagues of Pauli's as well as himself from any indiscretions. For well over 1000 letters we collected so far - I expect many more to come - I have received 5 restrictions concerning publication, all of them concerning disparaging remarks on other physicists.

I am keeping most carefully book about any publication restrictions and made a notice, that you don't consent that your Pauli letters should be printed - if this ever would be intended. I am moved by your concern about Pauli's letters, it also is mine, and hope this will put your mind at ease. I would be grateful if you passed on this information to Pauli's friends.

With my warmest regards, also to your wife and Yusuf and looking forward to see you before you go back to Turkey, I remain, as always,

yours

Franca Pauli
