Professor F. GURSEY
Institute for Advanced Physics
University of Princeton
PRINCETON - NEW JERSEY - USA -

Dear Professor Gursej,

This year a summer school on weak interactions will be held by the Italian Physical Society at Varenna, lake Como. The courses will start on June 29th and close on July 11th.

We would be very grateful to you if you could consent to give a course of about ten lectures on any subject you might like to choose in accordance with the general title "weak interactions".

I will let you have as soon as possible the names of the other lecturers and the proposed titles of their courses.

The Italian Physical Society offers complete hospitality to the lecturers of the school, coverage of travel expenses, and a contribution to the expenses incurred in Varenna by the lecturer's family.

May I repeat how extremely pleased we would be to have you come.

Yours Sincerely

L.A. Radicati

PRINCETON, NEW JERSEY - USA -

Dear Doctor Gursej,

Thank you for your letter of February 16. It is unfortunate that the visa problem makes it difficult for you to come to Varenna. As you understand I would rather like to sketch a preliminary program as soon as possible but I would very much hope that you could be in the lecturers list.

I suggest that you should in any case apply for you visa with the understanding that, should this come too late, you should be allowed not to use it. I will keep your name in the waiting list for a few weeks more, say until the middle of March. Do try to give me a positive answer by that time: in case the visa should come at the last minute could you please send me a cable ?

I dont think there is much point in discussing the program just now; especially since I do not yet know all the other lecturers programs.

The one you suggest is actualy the one I had in mind. ^{to ask you} I dont think it will need much change. I very much hope to seeing you in Varenna.

Good luck for your visa

Yours sincerely

L. A. Radicati
