RE: Arrival of Trustees

Attached is a summary of information and plans to date about arrival of Trustees, arrangements for their being met at Yeşilköy, and identity of campus hosts. I think I have discussed directly with each individual host or chauffeur all the details in this summary which affect him, so the purpose of this memorandum is simply to confirm agreements already reached, and to thank you all most sincerely for your kindness and cooperation.

Those of us who have flights to meet on Sunday, May 15th, will perhaps note that there are eleven people due on that day on six different flights. Since there's no way of knowing until that day --- if then --- about flight delays, I suggest that we hold to the man-to-man defense specified on the attached summary until definite additional information suggests a better arrangement.

I'll keep each of you informed, meanwhile, of any changes that I learn about myself.
